

Archuleta County Suicide Prevention Collaborative Common Agenda

Vision: All individuals in Archuleta County will feel a strong sense of social connectedness to both supportive individuals and resources and can respond to the unique challenges they face through short and long-term interventions.

Goal: Decrease the rates of suicide mortality and attempts for all individuals in Archuleta County.

Archuleta County- Goal statements:

1. **Navigation and Continuum of Care:** Archuleta County fosters a culture in which community organizations are informed and collaborate to support individuals in responding to life circumstances that impact decision-making and needs.
2. **Access to Resources:** Archuleta County community members have access to readily available, high quality, equitable services that meet comprehensive health needs related to suicide prevention.
3. **Awareness of Resources:** Archuleta County community members will have an awareness of available resources, supports, and services and how to access them.
4. **Social and educational supports and affordable services for connection-** Our community supports affordable, accessible social and educational opportunities that foster meaningful connections between individuals.
