

Food Safety Basics Training

Join one of our own Environmental Health Specialist/Restaurant Inspectors, Ace Else, on this three-hour training. Successful completion of the training will earn the attendee a certificate of completion from San Juan Basin Public Health. We will go over information including: foodborne illness risk factors, proper hand washing, cooking temperatures, storage of food, and much more! Bring your new employees to give them a safe start to summer season or use it as a refresher course.
